

PERMISSION FOR IMAGE/WORK IN MEDIA, NETWORK AND COMMUNITY

Throughout the school year, area newspapers and television stations cover special events and activities that take place in our schools. Often they want to photograph or videotape students. Please indicate below if your child's image can be used in an article or video clip. Also, indicate whether your child's name, image, and work can be published in his/her school's newsletters, as well as noting whether your child's artwork can be displayed in businesses in the community or division art fairs.

In addition, there may be an occasion for information about your child's accomplishments with your child's picture to appear on the school and/or division web page. The child's name will NOT appear. Just as anyone may pick up and read information about a student in a newspaper article, anyone with access to the Internet may find and read information about a student on a web page.

Student's name _____ Grade _____

1. You may use my child's image in newspaper articles and television reports during the year.
